Made in Europe, Made with Love

Our wristbands are produced in Germany, Italy or Switzerland while the finishing touches are added by the non-profit organization *Nachbarinnen in Wien*. The association supports the integration of women with migrational backgrounds.

Final assembly such as attaching metal parts, quality control and packaging are performed by a passionate all-female team in Vienna.

These steps are an important part of the production process and are without a doubt reflected in the personality of the products.
